# TEMPTATION

(*Blue Beauty x King Lear*)

✿ TEMPTATION is a radiant, self-purple glad which opens six 5" florets with six more showing color on an 18-bud spike. The height of a blooming plant is 58". Blooms in 75-80 days. Placement, facing and attachment of florets are excellent. Bulblet production and germination are likewise fine. Florets do not waterspot or burn in the field. Winner of the American Home Achievement award at the Maryland show in 1947.

## *Introductory prices:*

Any size bulb plus 10 bulblets, \$9.00 (Bulblets sold only in combination with bulb.)

# JOURNEY'S END

(*Picardy x Pfitzer's Triumph*)

✿ This glad is the happy blend of its two great parents. Color is a salmon red, the throat and petal margins being a deeper shade than the rest of the flower. Its 6" flowers are carried high on a tall, strong stem. It is an early bloomer.

JOURNEY'S END never fails to attract. It is a giant in the garden, a consistent winner at the shows, and a heavy favorite for basket arrangements.

# WAR PAINT

🌸 A new scarlet which opens up to 10 large florets on a 22-bud spike. Height 54", flower-head 27". Because of its strong straight stem and long flower-head, it makes an excellent garden glad as well as cut flower variety. Blooms in 85 days. Does not burn or crook. Bulblets germinate well and make strong plants.

As a show flower WAR PAINT has never let us down. It is a consistent winner in its color class and holds many special awards including, champion spike, champion basket, and American Home Achievement Medal.

# SPRING SONG

🌸 SPRING SONG is recommended to fill the needs of anyone looking for a large-flowering, early, lavender gladiolus for the cut-flower trade. Florets are large, ruffled and have a throat marking of a deeper shade. Flower-head measures 27 inches and usually carries 16 buds although 20 buds are not uncommon on first spikes. Overall height of plant is 50 inches. Stem is consistently straight. Large bulbs produce two spikes. An interesting feature of this variety is that a planting of uniform size bulbs is "cut-out" in 8 days, only a very few stragglers remaining after that time. Here in Lebanon our early planting comes into bloom on the first day of July. SPRING SONG is healthy and holds its green foliage until quite late in the fall. It is an excellent propagator and frequently blooms from bulblets.

Large bulbs .....	\$1.00 each; 10 for \$8.00
Medium .....	.75 each; 10 for 6.00
Small .....	.50 each; 10 for 4.00
Bulblets .....	10 for .80; 100 for 6.00
